OBJECTIVE

B.Tech AI & ML student (CGPA 8.54/10, graduating 2027) who builds and deploys responsive web interfaces in HTML, CSS, and JavaScript with PHP/MySQL back ends. Seeking a Software Engineer role to build production-ready front-end and full-stack applications.

TECHNICAL SKILLS

Front-End	HTML, CSS, JavaScript, Responsive Design, PWA
Back-End & Data	PHP, MySQL, REST APIs, C# (WPF), SQL
Programming	Python, JavaScript, PHP, C#
AI / ML	Machine Learning, Deep Learning (TensorFlow), NLP, Pandas, NumPy
Tools & Cloud	Git, VS Code, Jupyter, AWS (Cloud Foundations), Google Cloud

EDUCATION

B.Tech – Artificial Intelligence & Machine Learning **CGPA: 8.54/10**
Srinivas University 2023–2027

EXPERIENCE

Abhimo Technologies, Karnataka
Part-Time Full-Stack Developer **July 2026 – Present**

- Continue to build and maintain the company website alongside my studies.

Full-Stack Web Development Intern **May 2026 – June 2026**

- Shipped performance patches to the live system without interrupting workflows.

Virtual Internships **July 2025 – December 2025**

- **AI/ML Intern**, Averixis Solutions (AICTE-recognized, August–December 2025): trained and cross-validated ML models.
- **Front-End Web Development Intern**, Edunet Foundation & IBM SkillsBuild (6 weeks): built responsive pages in HTML, CSS, and JavaScript.
- **Emerging Technologies (AI & Cloud) Intern**, Edunet Foundation & IBM (4 weeks).
- **UI/UX Design Intern**, Snestron Systems Pvt. Ltd. (July–August 2025, 4 weeks).

PROJECTS

AI Resume Architect *Python, NLP, LLM APIs, Streamlit* *October 2026*

- Developed a generative resume builder that parses raw user context and constructs structured, ATS-optimized layouts using tailored prompts.
- Built an interactive pipeline to process raw textual history, sanitize sensitive identification markers, and format high-impact technical resumes.

Abhimo Technologies Website (live site) *HTML, CSS, JavaScript, PHP, MySQL* *May 2026 – September 2026*

- Built the company website as a PWA with push notifications, a role-based media dashboard, and a chatbot.

Perks Property – Real Estate Platform (live site) *Client Project* *July 2026*

- Built a responsive property listing portal with multi-criteria search, map browsing, geolocation, reverse geocoding, property comparison, and mortgage calculators.

All In One Technology Pvt. Ltd. Website (live site) *Client Project* *September 2026*

- Redesigned and deployed the website for a laboratory-instruments and calibration company (est. 2004) in one week, with a relational admin panel, responsive layout, and SEO metadata (page titles and meta descriptions).

CERTIFICATIONS

- Web Development Fundamentals, IBM (October 2025) | Deep Learning Using TensorFlow, IBM (March 2026)
- Prepare Data for ML APIs, Google Cloud (April 2026) | IT Specialist – AI, Certiport (December 2025)
- AWS Academy Cloud Foundations, AWS (January 2025) | Credly: sudeenjain

ACHIEVEMENTS

- 3rd Place, SIT Hackathon 2026 (out of 20+ teams)
- Completed 5 internships and earned 20 certificates (11 Credly badges); maintain 35 GitHub repositories
- Added SEO metadata to my portfolio site so it appears in Google results for a search of my name
