

CAREER OBJECTIVE

Final-year B.Tech AIML student with hands-on experience in full-stack web development, machine learning, and deployment. Skilled in Python, JavaScript, React, Node.js, MySQL, and cloud platforms. Seeking a full-stack internship to build impactful real-world solutions.

WORK EXPERIENCE

Full-Stack Web Development Intern • Internship

Abhimo Technologies, Karnataka

May 2026 - Jun 2026

Built and improved responsive websites and full-stack web applications, enhancing user engagement and operational efficiency. Developed features for Abhimo Tracker, including attendance tracking, employee activity monitoring, project updates, and admin dashboards, resulting in streamlined operations. Utilized PHP, MySQL, JavaScript, HTML, CSS, REST APIs, and C# WPF to create dynamic web solutions. Tested, fixed, and deployed application updates on the production server, ensuring minimal downtime and improved user satisfaction.

Front-end Web Development Intern • Internship

Edunet Foundation, Virtual

Aug 2025 - Sep 2025

Built responsive and interactive web pages using HTML, CSS, and JavaScript, enhancing user engagement and accessibility. Applied frontend development concepts and UI/UX design principles to practical assignments, improving overall user experience. Utilized modern web-development tools and learned website deployment techniques, contributing to efficient project delivery. Successfully completed a 6-week internship in collaboration with AICTE and powered by the IBM SkillsBuild program, gaining valuable industry experience.

Artificial Intelligence And Machine Learning Intern • Internship

Averixis Solutions, Virtual

Aug 2025 - Dec 2025

Completed practical training in artificial intelligence and machine-learning concepts through structured assignments, enhancing technical proficiency. Applied AI and ML fundamentals to solve practical tasks, improving problem-solving skills and project outcomes. Developed a comprehensive understanding of industry-oriented workflows and real-world applications, preparing for future challenges. Successfully completed a four-month internship recognized under AICTE, gaining hands-on experience in AI and ML.

Emerging Technologies (AI & Cloud) • Internship

Edunet Foundation, Virtual

Jul 2025 - Aug 2025

Learned core artificial intelligence and machine-learning concepts through practical assignments, enhancing foundational knowledge. Built and tested machine-learning models using Python and related libraries, achieving significant improvements in model accuracy. Conducted data preprocessing, model evaluation, and real-world problem-solving, contributing to effective project outcomes. Improved technical, analytical, and project-presentation skills, preparing for future challenges in AI and ML.

EDUCATION

B.Tech, AIML

Srinivas Institute Of Technology

2023 - 2027

CGPA: 8.54/10

TRAININGS / CERTIFICATIONS

Lifelong Professional Skills

Jul 2026

IBM SkillsBuild, Virtual

Developed essential workplace skills, including communication, collaboration, adaptability, problem-solving and continuous professional development.

Project Management Fundamentals

Jul 2026

IBM SkillsBuild, Virtual

Completed foundational training in project planning, stakeholder communication, risk management, agile concepts and effective project execution.

Introduction To Generative AI Studio

Apr 2026

Simplilearn SkillUp, Virtual

Studied generative AI fundamentals, prompt-engineering techniques, model parameters such as temperature, top-k and top-p, and the integration of AI models into applications. The course was powered by Google Cloud.

Prepare Data For ML APIs On Google Cloud

Apr 2026

Google Cloud Skills Boost, Virtual

Gained hands-on experience with Dataproc, Spark jobs, Speech-to-Text API, Cloud Natural Language API and cloud-based machine-learning data-processing workflows.

AWS Academy Cloud Foundations

Oct 2025

AWS Academy, Virtual

Studied fundamental cloud-computing concepts and AWS services. Gained practical exposure to EC2 instances, security groups, EBS volumes, snapshots and cloud infrastructure management.

Getting Started With Artificial Intelligence

Sep 2025

IBM SkillsBuild, Virtual

Built foundational knowledge of artificial intelligence, its core concepts, common applications and the use of AI to solve real-world problems.

Web Development Fundamentals

Aug 2025

IBM SkillsBuild, Virtual

Developed foundational web-development skills using HTML, CSS and JavaScript. Learnt responsive design, Git, backend concepts and basic web-application deployment.

Microsoft Azure Fundamentals: Cloud Computing

Jun 2025

Infosys Springboard, Virtual

Learnt cloud-computing fundamentals, Microsoft Azure architecture, cloud services, security concepts and cost-management principles.

Website Development Tutorial

May 2025

Infosys Springboard, Virtual

Studied frontend and backend web-development concepts, modern web technologies and practical techniques for developing web applications.

Data Visualization

Mar 2025

IBM, Virtual

Learnt techniques for presenting data through effective charts and visual representations to identify trends, patterns and meaningful insights.

Introduction To Artificial Intelligence

Apr 2026

Simplilearn SkillUp, Virtual

Learnt the fundamentals of artificial intelligence, machine-learning concepts, real-world AI applications and emerging industry trends.

Deep Learning Using TensorFlow

Mar 2026

IBM, Virtual

Learnt deep-learning fundamentals and developed an understanding of neural networks, model training and practical implementation using TensorFlow.

Predictive Analytics Using IBM SPSS Modeler – Foundations

Oct 2025

IBM career education program, Virtual

Gained practical experience in data preprocessing, predictive modelling, model evaluation and data visualization using IBM SPSS Modeler.

Journey To Cloud: Envisioning Your Solution

Aug 2025

IBM SkillsBuild, Virtual

Learnt cloud-computing concepts, cloud-solution planning and approaches for designing technology solutions based on organizational requirements.

Aws Solutions Architecture Job Simulation

Jun 2025

Forage, Virtual

Completed a virtual job simulation in collaboration with AWS. Practised designing simple, scalable and reliable cloud-hosting architectures using appropriate AWS services.

Foundational Programming And Web Technologies

Jun 2025

Infosys Springboard, Virtual

Completed structured training in programming fundamentals and web technologies. Learnt HTML, CSS, JavaScript, problem-solving and responsive web development through practical exercises and assignments.

IBM Watson Services – Rapid Development For AI

Mar 2025

IBM, Virtual

Gained exposure to IBM Watson services and learnt how AI-powered features can be rapidly developed and integrated into practical applications.

Relational Database Management System

Feb 2025

IBM, Virtual

Studied relational database concepts, database design, tables, relationships, SQL queries and structured data management.

Machine Learning

Sep 2024 - Oct 2024

Edgate Technologies, Virtual

Learnt machine-learning fundamentals, model-development concepts and the practical use of algorithms for solving data-driven problems.

PORTFOLIO

[GitHub link ↗](#)

[Portfolio link ↗](#)

PROJECTS

[Perks Property – Real Estate Listing Platform ↗](#)

Jun 2026 - Jul 2026

Developed a responsive real-estate platform with: - Property listings and advanced search - Interactive maps and location detection - Wishlist and property comparison features - Financial calculators and reverse geocoding - Map-based property browsing for desktop and mobile users.

[AI-Based Movie Recommendation System ↗](#)

Mar 2026

Built an interactive movie recommendation system that: - Provides personalized suggestions based on user preferences - Utilizes recommendation algorithms and data preprocessing - Features a responsive web interface for exploring trending movies.

[CareerReady – AI-Powered Career Preparation Platform ↗](#)

Apr 2026 - Present

Built an AI-powered career preparation platform that: - Helps students prepare for placements and internships - Implements resume analysis and intelligent career insights - Provides structured feedback to improve professional readiness.

SKILLS

- | | | |
|-------------------------------------|-------------------------------------|-----------------------|
| • Python | • Java | • C# |
| • HTML | • CSS | • JavaScript |
| • Database Management System (DBMS) | • SQL | • VS Code |
| • Git | • Jupyter Notebook | • Machine Learning |
| • Artificial intelligence | • PHP | • MySQL |
| • REST API | • Data Analysis | • Pandas |
| • NumPy | • Deep Learning | • Generative AI Tools |
| • Prompt Engineering | • Natural Language Processing (NLP) | |

EXTRA CURRICULAR ACTIVITIES

- Actively participate in coding activities, technical workshops and collaborative software-development projects. Regularly explore artificial intelligence, machine learning, cloud computing and web development through practical projects and online learning programs. Also contribute to team-based projects by supporting development, testing, problem-solving and project presentation.

Machine Learning

Aug 2024 - Oct 2024

Ethnotech Academy, Virtual

Completed foundational training in machine-learning concepts, algorithms, data analysis and practical model-development workflows.

[AI Resume Architecture – ATS Resume Builder ↗](#)

Apr 2026

Developed an AI-powered resume-building platform that uses LinkedIn and GitHub information to generate ATS-friendly resumes. Designed the platform to reduce repetitive resume editing and help students create targeted resumes for internships and placement opportunities.

Technologies: Artificial Intelligence, Web Development, GitHub Integration and Resume Analysis.

[Abhimo Tracker – Employee Attendance and Activity Management System ↗](#)

Jul 2026 - Present

Developed a full-stack employee attendance and activity management platform that includes: - Windows desktop application and REST API - Browser extension and web-based admin dashboard - Features for employee registration, OTP verification, and attendance tracking.

ADDITIONAL DETAILS

- Participated in Code Meet 2025; earned Certiport AI Specialist, AWS Cloud Foundations, IBM and Google Cloud badges; built AI Resume Architect, featured on Product Hunt; and gained web development experience at Abhimo Technologies.
